Deepak Saini

Front-End Developer

About Me

With 3 years of experience creating aesthetically pleasing and user-focused websites, I am a creative and meticulous Website Designer. Knowledgeable in contemporary web technologies, including HTML5, CSS3, jQuery, React, JavaScript, Tailwind CSS, Bootstrap, and WordPress. Strong understanding of adaptive and responsive design principles, with expertise in converting PSD and Figma designs into clean, responsive HTML/CSS. Experienced in Page Speed Optimization, including image optimization, code minification, lazy loading, caching, and Core Web Vitals improvements to deliver fast, high-performing, and SEO-friendly websites.
